

A local nonprofit dedicated to helping  
the most vulnerable in our community

To Whom it May Concern,

**The Throwing Starfish Foundation is a local nonprofit dedicated to serving the most vulnerable in our community.** Currently we are doing a large fundraising drive to support local foster kids. When kids enter foster care they are given garbage bags in which to carry their belongings. At the Throwing Starfish Foundation we are putting together **Comfort Bags** for local foster kids that provide the children with a sturdy duffel bag as well as several comfort items including stuffed animals, books, blankets, toiletries, hair brush, water bottles, gloves, crayons, coloring books, and more.

We are also putting together **Apartment Kits** for foster kids aging out of the system into independent living situations.

Our efforts to make a difference can't take effect unless we have the support of everyone in our community. That's where you come in!

I'm writing to ask if your company would consider contributing to our project with a monetary donation or perhaps a product donation. As you can see to the right, our Comfort Bags and Apartment Kits have a lot of contents, we would love to include your products or gift cards!

If you would like to have a discussion about donating time, money, or services, you can contact me directly at 916.201.5243 or [info@throwingstarfish.org](mailto:info@throwingstarfish.org).

I hope to hear from you soon, and thank you in advance for your generosity.

Sincerely,

*Dawn Dais*
